

OZMMAS-24V
system

OZMMAS-24V

Innovative design of ultra-micro structure, there are designs for recessed, ceilings, and pendent.

They adopt micro-shaped and exquisite magnetic designs.

Because they are very easy to install.

They can be easily and quickly adjusted according to various professional lighting standards to meet the needs of lighting design.

Suitable for a variety of professional lighting solutions including widely used in luxury chain counter lighting, window lighting, exhibition lighting, hospitality, home lighting, etc.

The ultimate solution

OZMMAS-24V mini track system

Thanks to the exquisite structure of the 11 mm track design, the OZMMAS series has strong capabilities to fit into stenosis space. Its magnetic adaptor provides a convenient and prompt replacement module. The best solution for the showcase, shelf, niche, etc.

OZMMAS-24V

OZMMAS-24V diversity installation

The track for the OZMMAS series has multi-type functions. Such as surface mounted, recessed trimless, pendant, and top-down pendant type. Furthermore, the track has three default lengths, 1 M, 1.5 M, and 2 M, for the choice. What's even more pleasant is the track can be cut on-site. In other words, users can customize the specific length of the track to meet various requirements.

Professional-grade optical lens

Crafted with a combination of high-quality multi-layer lenses to enhance light transmission, providing high adjustability, uniform light output, and a wide zoom range.

We recommend this professional mini spotlight, specifically designed for high-end display needs. It is particularly well-suited for focusing on delicate small items, ensuring excellent illumination even for the smallest artifacts.

This light fixture features a mini track design, occupying minimal space, and can be easily adjusted without tools, adapting seamlessly to changes in the display space. It offers a vertical tilt range of 0° to 90° and a horizontal rotation capability of 355°, allowing for flexible positioning and configuration based on the display items' location and angle. Available with color filter and Customization gobo

High-precision optical components ensure clear beam outlines and high illumination uniformity, guaranteeing that every item is presented in the best possible light, drawing all attention to the exhibits themselves.

This professional mini spotlight is the ideal choice for museums, galleries, high-end retail stores, and other display spaces that require precise lighting. We believe it will provide your exhibits with outstanding illumination, allowing every piece to be showcased in its most perfect form.
